## OUR TEAM

Skylight is owned and operated by Matthew Sutika, a second generation insurance giant who previously ran the number one office of a top insurance brand nationally, in partnership with Elmdale Partners. The founders assembled an expert team of professionals collectively representing over 75 years of insurance knowledge to address clients' specific issues quickly, efficiently and with care.

## OUR STORY

After decades helping facilitate the home buying process, our founders discovered something deeply troubling: The home buying process is unnecessarily tedious, particularly when it comes to insurance. Millions of Americans buy homes each year yet nearly all endure a painful insurance experience. We decided to change that and partnered with the largest Century 21 affiliated organization in the country to optimize the insurance process so it feels like a concierge. We pride ourselves for offering flexibility, ease, accuracy and the best coverage at the lowest rate.
